Introduction

This reference guide is aimed at any Manager who wishes to assign their RiskMan responsibilities e.g. reviewing Incidents and Feedback Notifications; reviewing Risks; reviewing Quality Activities; to another user or users, if they are away from their duties for an extended period of time e.g. annual leave

What happens if I go on leave or cannot fulfil my **RiskMan duties for a period of time?**

If you are away from your normal working duties for a considerable period of time, you can delegate your RiskMan responsibilities to another RiskMan user or users from the menu option My Workspace -> Assign a Delegate

To delegate your responsibility

Press Add Delegate 1 1.

- Press the **Filter 2** icon 2.
 - Use one of the Filter conditions e.g. Enter the user's surname in the User Name Filter field and press Filter List
- A list of users that match your filter conditions will be 3. displayed in the **Delegate S** List. Select from the list
- Enter the start and end date 4 for the delegation 4. period (End Date should be the date you are returning)
- Press Save 6 5.
- 6. Repeat the above steps if you wish to delegate to more than one user for the same or a different date period

How does the delegated user look after my **RiskMan workload?**

The user would log onto RiskMan using their own logon & password, select My Workplace -> My Identity and select your user name from the Select an Identify list

During the delegation period the user will be cc'ed on all email notifications you receive from RiskMan e.g. Alerts, Journal Alerts, Distribution Lists.

Logon as Yourself.

Whilst the user is using RiskMan under your identity, any activity that they engage in with an Incident, Feedback, Risk or Quality Activity, will be noted on the Review History in a separate column – Delegated By (as per example below). In this way it will be clear who was working with that notification at that time
