### INTRODUCTION

Every record list that you have permission to view in RiskMan can be configured to suit your requirements. Further to this, each record list can be configured *individually*, meaning that for example if you can see the

- Entered Incidents page,
- Incident Inbox page, and
- Posted Incidents page

...you can set each one up with its own unique configuration.

You are able to:

- Change the columns being displayed, their widths, and the order in which they appear
- Change the number of rows shown per page
- Change the way the list is sorted, grouped, and filtered
- Save the way you've configured the page as a "View", and switch between your personally configured views
- Export the resulting list to a Microsoft Excel file if you wish

This guide also explains list functionality which is based on user permissions, so you might not have permission to some of these functions (it depends on your level of access). These include:

- Ability to generate a "Letter", based on an existing record in a register
- Ability to clone or update a record
- Ability to reassign ownership of a record

#### (i) Note

This information in this guide applies to <u>any</u> register, however we have used an Incident register in the screenshots as it is the most universal register.

### LIST BASICS

Here's an explanation of the common functions on your lists:

	٢	N	1y Wor	kspa	ce 🕶 Ma	nagement	- Administration	• ▼ Reports ▼ Hel	p • Log Out Feed	lback Module		USER: System Manager (Ma
9	3	Sele	ct a re	cord t	to display t	the availab	le tools.	5		tidents for Revie	w	6 🌣 📰 💶

- You cannot modify these columns; they will always be displayed as-is.
- 2 Columns that you can change: Column order, widths, show/hide, etc
- **6** Pagination info: Total records and page count
- Pagination: Change the number of rows showing per page; navigate to first / previous / next / last page
- Toolbar: When you select a record, the available functions/options for working with that record appear here
- **6** Toolbar: Options for configuring and working with your list overall

### The fixed columns: Explanation

- "Administrative" status of the record. Click the 论 icon for more information.
- Your personal viewing status of the record. Green: You've never opened it. Grey: You have opened it. Red: Since you last opened it, someone else has modified it. Also, click the icon to open the Review History of the record.
- The paperclip tells you there is at least 1 document attached to the record
- Obist is short for Distribution List. Usually it will say None. In this example, there is a number 1 in one of the rows. This represents the number of users who have been put on the Distribution List for that record who have not yet viewed it. This column is also a shortcut click it to distribute the record to other users.
- **5** Record selection check box: Tick the box to select a record, and the options in the toolbar will appear.
- ID number: Click on the record's ID number to open it. Note that you <u>do not</u> need to check the record's selection box before clicking the ID number!

1	2	3	4	5	6

### **MODIFYING YOUR LIST**

### Changing the columns shown on your page

Essentials

Click the Change Columns icon in the

The Change Columns dialog is shown. Highlighted at the top of the list are the columns currently being displayed on your list:

nge C	olumns			6
	Change Columns		Cancel	Save
This pa	age allows you to choose which columns of information you wou		ee on your Incide Display 'Advanced	· · · ~
#	Field Label	Sort Order		
3	3		4	
V	Incident Date			1
•	Incident Involved			4
	Location			5
	Summary			6
<b>V</b>	Outcome			7
	Facility			9999
	24 Hrs prior to Patient in			9999
	A.C.D. Completed After MET			9999
	A.C.D. Prior			9999
	A.C.D. Suggested			9999
	Activity At The Time			9999
	Acute Illness			9999

- 1 Uncheck to remove column
- 2 Scroll through the list of fields and check each one you want to display as a column on your list
- **6** Can't find what you're after? Start typing a field name here to search the list
- ④ Set the default order of your columns. This is useful when ever you clear a view in your list, it will assume the order you have set. Any numbers in the Sort Order column that are the same will appear in alphabetical order. In this example 9999 is set to alphabetical order
- Click the **Save** button once you're done. Your list will refresh, and the columns you selected will be displayed.

## 

#### Extras

#	Field Label
$\mathbf{X}$	
	ncident Date
	Incident Affected ×
	Location

You can edit the **Field Label** if you like. You might do this to abbreviate a long field name. Your changes are only visible on this list, and they will not affect any other part of the system.

		Change Colun	nns Ca	ncel Save
Thi	s page allows you to choose which	columns of informati		our Incidents page. 🔞 'Advanced' Columns 🗹
#	Field Label	Sort Order	Field Name	Field Type
<b>V</b>	Incident Date	1	IncidentDate	Incident
<b>V</b>	Incident Involved	4	IncidentInvolved	Incident
7	Location	5	Incident_Location	Incident
<b>V</b>	Summary	6	Description	Incident
1	Outcome	7	Outcome	Incident

Check the **Display 'Advanced' Columns** box to show additional information for each field. You might need to use this option to differentiate between several fields from your register that have the same label; in which case, you could determine which is which by referring to the **Field Name** column, which contains the unique name of that field in the database.

### Change the order of your columns

Simply click and drag a column header to a new spot to rearrange your columns. When you see the two white arrows, you can release your mouse button. The system remembers your changes as you go.

## adjust their widths to make the best use of the space available on your screen. We recommend adjusting them from left to right.

Put your mouse cursor on the line the separates each column. Click and drag left to right to adjust as needed.

Once you have adjusted all the column widths as desired, click the save icon  $\overleftarrow{\mathbf{H}}$  in the toolbar to save your changes.

Adjust the widths of your columns

Once you have your columns in their desired order, you can

Note that the save icon only appears in the toolbar *after* you've started adjusting the width of your first column.

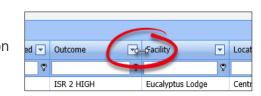

### Sort your list

Click on a column heading to sort your records by values in that column.

The arrow represents whether you are sorting in ascending or descending order.

The column you sort by will always be remembered on this list.

ID	Incident Date 👻 💌	Incident Involved
٣		•
<u>3757</u>	12 Jan 2015	Patient/Client
<u>3752</u>	9 Dec 2014	Patient/Client
<u>3742</u>	28 Nov 2014	Patient/Client
<u>3735</u>	28 Nov 2014	Patient/Client

### Group the records on your list

Group the records based on one of the columns showing in your list. In this example we've grouped our incidents by their severity rating:

?	s s	elect a	record	to dis	splay the a	available tools.			INB	0)		cidents for Rev ents and edits of Incidents	view

### Save the way you have configured your list as a "View"

Once you have setup the columns you want, and applied sorting, filtering, or grouping to your list, you can then save that configuration as what is called a **View**. You can have multiple saved views that you can switch between with the click of your mouse.

In this example, we've grouped our records by the Incident Involved field, and we have sorted the records by incident date.

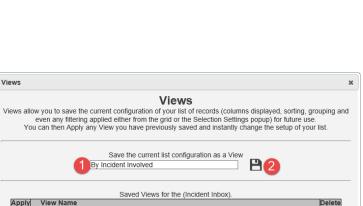

In order to save this as	a view, we	need to	click the	View
icon 🛅 in the toolbar.				

Olick the Save icon . You will be returned to

• You can delete any of your existing views by

the list, and a message will be displayed to

clicking the respective **Delete** icon **W**.

Summary

You can now switch between your saved Views by hovering your mouse (do not click) over the **Views** icon , and clicking the **Apply** icon **f** of the View you wish to load.

• Type a name for your View.

confirm your view was saved.

### Export the list to Excel

You can export the records shown on the current list by click the Excel icon 🕮 in the toolbar.

Only the first page is exported, so if you list contains more records than can be displayed on one page because of your pagination settings, simply increase the number of items per page so that they fit on to one page.

None 🗌	<u>3723</u>	7	Blah blah blah	ISR 4 MINOR

177 Records Found (Page 1 of 1)			Items per page: 200	• « <	1 • > >>

#### (i) Note

The Export to Excel function may not be available as it is permissioned by your Administrator.

### **Selection Settings**

In the toolbar, you'll note the Selection Settings cog icon 🏶. It contains the following functionality:

- Switch between the various record lists that you have permission to view
- Restrict the records being shown on your page by record type; in this example by Incident Involved
- Restrict the records being shown on your page using date filters (the date fields available will vary by register)

Selection Settings		×
	Selection Settings	
Display: Incidents Involving:	Inbox (Incidents)     All Incidents	
Date Entered:	3 From To	•
Incident Date:	From To	•
Notification Date:	From To	•
Incident IDs:	0	
Allow rows to expand ver Apply Settings	ically: 🌀 🗆	
		Clear Layout

• Restrict the records being shown on your page by specific record ID numbers. Separate multiple ID numbers using a comma, e.g. 51,73,106 etc

• You set the width of the columns you have chosen to display on your list. By default, if any individual cell contains more information than can be shown, the information will be truncated, and an ellipsis displayed instead.

Enabling this setting will force the content to be displayed; information in the fields will wrap instead of being truncated.

Left: Setting turned off Right: Setting turned on

• Once you have configured the various settings, click the **Apply Settings** button. Your list will refresh with your desired settings in place. The settings you apply here will be remembered until you decide to change them.

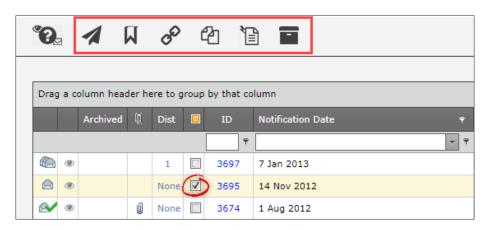

Should you wish to return your list back to a "default" configuration, click the Clear Layout button. This returns your list to the default settings, including columns displayed, removing all sorting, filtering, and grouping, and clears all of the settings applied in the Selection Settings dialog. Note that any Views you have created will not be affected by this action.

### **MODIFYING THE RECORDS SHOWN ON YOUR LIST**

### **Functions/Option Toolbar**

When a record is selected from a list by clicking on the check box in the Selection column a Function/Option toolbar of icons will appear.

The Functions/Options icons are shown on the top left of the screen, underneath the menu buttons.

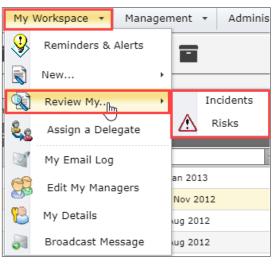

Depending upon the Register you are viewing and your user permissions, the number of available icons you see displayed will vary:

#### Icons available under "My Workspace" tab.

۲	
	Ar

#### Grey eye

An item that has not changed since you last viewed it.

### **C) RLDatix**<sup>®</sup>

#### **Distribution List**

Allows you to distribute access of the selected record to other users.

P

#### Bookmark

Bookmarks the selected record. The bookmark will appear in your bookmark widget on your Homepage and in your Reminders & Alerts page.

#### Link Records

Allows you to link two or more records together because they are relevant to each other in some way.

Once you have selected a record, click this button to open the Linked Records dialog. From there you will be able to select records that you want to link together.

#### Clone & Link

Creates a new record based on an existing record. When submitted, those two records (the original and the clone) will be linked together.

#### **Custom Functions**

(Letter Builder or Bulk Assign Managers) The Custom Functions allows you to access Letter Builder letters and/or the Bulk Assign Managers function.

#### Delete

Deletes the selected record/s. A record may also be restored, if necessary, and if you have permission to do so.

#### Note: Archive is available only from the **Review My > Incidents** list

#### Archive

This allows the user to mark a record as "Archived" and hides it from their **Review My > Incidents** list.

### Using the selection state menu items

#### **Distribution List**

To add or remove users to or from a records Distribution List - do the following:

Select the record - From any Register List (the Entered Incidents List is used in this example) select the record that you want to apply a distribution list change to by clicking on the check box in the Selection State column

2 Open the Distribution List dialogue – Click on the Distribution List icon A in the Selection State Menu

0	2	1	2	P	É	2 1	Shows In		Incidents or anyone reporting to you,

## **C) RLDatix**

#### **Link Records**

To Link two or more Incident records - do the following:

Select the record - From any Register List (the Entered Incidents List is used in this example) select the record that you want to link by clicking on the check box in the Selection State column

Open the Link Records dialogue – Click on the Link Records icon P in the Selection State Menu

°0_	<ul> <li>Image: A A A A A A A A A A A A A A A A A A A</li></ul>											
Drag	Drag a column header here to group by that column											
		Archived	Q	Dist		ID		Notification Date 💡	Reporters Name 💡	Surname <del>y</del>		
	_						Ŷ	· · · ·	q	Ŷ		
	۲			1		3697		7 Jan 2013	Default User	Hayden		
	۲			None		3695		14 Nov 2012	System Manager	Smyth		
	۲		Ú	None		3674		1 Aug 2012	Faulkner, Laura	Faulkner		
	۲	Yes		1 (		3672		1 Aug 2012	Hayden, Anne	Hayden		
	۲			1		र्जे 3671		1 Aug 2012	Nicolaidis, Christine	Mctest		
	۲		U	None		3667		1 Aug 2012	Nicolaidis, Christine	McTest		

B Enter/Search – Enter the Incident ID number that you want to link to the present record. Alternately, you can search for a record by clicking on the Search icon Q

4 Link the records – Click on the Add to Group icon ♂. The Linking/De-linking Reason text field is for entering your reason for linking or de-linking the records. This field is optional

*Note: The Linking /De-linking field must be enabled in Global Setting to have it appear in this window.* 

	Link Records											
Incident ID: 3697												
Linking/De	e-linking Rea	ason:	These inciden	is are related to an ongoing investiga	tion.							
Status	Exclude	ID		Surname	First Name							
Master			3674	Faulkner	Laura							
۲	2		3697	Hayden	Anne							
						,						

Other functions available in the Link Records window.

cident ID:						
		3697	♂° Q ❶	3 2 2 3		
nking/De-link	king Reason:	These inciden	ts are related to an ongoing investigation.	4		
Status Exc	clude ID		Surname	First Name		
Master		3674	Faulkner	Laura		
۲	3	3697	Hayden Anne			

0	€	Promote	This will move the record up the list of linked items. Moving a record to the top of the list will make that record the "Master" record in the group
2	ŝ	Exclude	This will remove the record from the group
₿		Dissolve Group	This will dissolve the group completely removing ALL links
4		Close	This will close the Link Records window

#### Clone & Link

This will open a new Incident form based on an existing record and link it to the that record that it was cloned from.

**1** Select the record - From any Register List (the Entered Incidents List is used in this example)

select the record that you want to Clone & Link by clicking on the check box in the Selection State column

2 Create a Cloned record – Click on the Clone & Link icon 街 in the Selection State Menu

°?	Image: Shows Incidents entered by you or anyone												
Drag	Drag a column header here to group by that column												
		Archived	Q	Dist		ID	Notification Date 💡	Reporters Name 💡	Surname 💡				
						Ŷ	۲ Ý	Ŷ	Ŷ				
	۲			1		3697	7 Jan 2013	Default User	Hayden				
	۲			None		3695	14 Nov 2012	System Manager	Smyth				
	۲		U	None		3674	1 Aug 2012 Faulkner, Laura Faulkner		Faulkner				
	۲	Yes		1 (		3672	1 Aug 2012	Hayden, Anne	Hayden				
	۲			1		3671	1 Aug 2012	Nicolaidis, Christine	Mctest				
	۲		Ú	None		3667	1 Aug 2012	Nicolaidis, Christine	McTest				

Cloned records will be based on the original record; however, they will not copy any personal information. For example; a cloned record will not contain First Name, Surname, Date of Birth, or Address.

Cloned records will be linked to the original "Master" record. This link to the Master record can be removed as described in the previous Link Records section.

#### **Custom Functions**

This icon give you access to one of three Custom functions.

- 1. Letter Builder shortcuts
- 2. Health Legal Assign Managers or Risk Assign Managers
- 3. Bulk Update Records

Access to these functions is dependent on the registers in your system and your level of permission.

The Custom Functions button is not a default function, it must be added to the menu before it is available.

**1** Letter Builder - From any Register List (the Entered Incidents List is used in this example)

select the record that you want to apply a Letter Builder letter to by clicking on the check box in the Selection State column

2 Print the Letter – Click on the Custom Functions icon 🛅 in the Selection State Menu

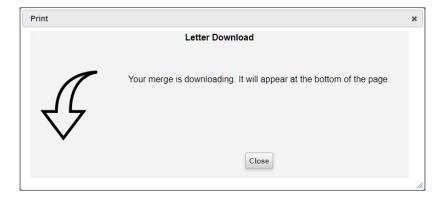

°?_	3	1 1	2	P	ć	2 2	Entered Incidents     Shows Incidents entered by you or anyone reporting to you, or

				- <b>U</b>	4	Compliment Thank you
Drag a	column h	neader h	ere to gro	oup by th	at	Suggestion Reply
		_	_	_		

The data merge will start and the Print dialogue will open.

For more information regarding the Letter Builder see the Letter Builder reference guide.

Delete

Records are never truly deleted in Riskman. They are "marked as deleted" in the register database and no longer visible in the Inbox or the Posted Incidents lists. To "delete" a record do the following:

Select the record - From the Inbox or Enquiry Register List (the **Posted Incidents** List is used

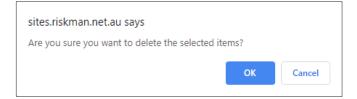

in this example) select the record that you want to Delete by clicking on the check box in the Selection State column

2 Delete the record – Click on the Delete icon 🛍 in the Selection State Menu

Image: Second system       Image: Second system <th< th=""><th></th></th<>													
۵	Drag a column header here to group by that column												
	🕅 Dist 📃 ID Incident Date 🕈 Reporters Name		Incident Involve	Facility 💡	Location 📍	Date Entered 🔻	Review Status 🕈						
					[	Ŷ	<b>▼</b> 9	Ŷ	Ŷ	Ŷ	Ŷ	<b>▼</b> 9	Ŷ

## **C)** RLDatix

Archive

Incident records that are entered by users will appear in their **Entered Incidents** list. There may be times when a user does not want to see all of the incidents in their **Entered Incidents** list view. For example, when a user has completed all their required work in a record or when the record has been marked as deleted in the **Incidents for Review** or **Posted Incidents** lists. To **Archive** a record do the following:

Select the record - From the Entered Incidents List select the record that you want to Archive by clicking on the check box in the Selection State column.

**2** Archive the record - Click on the Archive icon **=** in the Selection State Menu.
