

This is a prompt sheet – for more detailed instructions on using the List & Codes Maintenance section of RiskMan refer to the **List & Codes Maintenance Guide** accessed via the **HELP -> REFERENCE GUIDES**

**INTRODUCTION**

The following handout describes how to create tool tips against fields on your Incident and Feedback Entry forms. Tool Tips provide additional information pertaining to specific fields on the Incident & Feedback Entry forms which aid users with entering or reviewing these notifications.

Tool Tips are accessed by selecting **ADMINISTRATION -> LIST & CODES MAINTENANCE** menu option

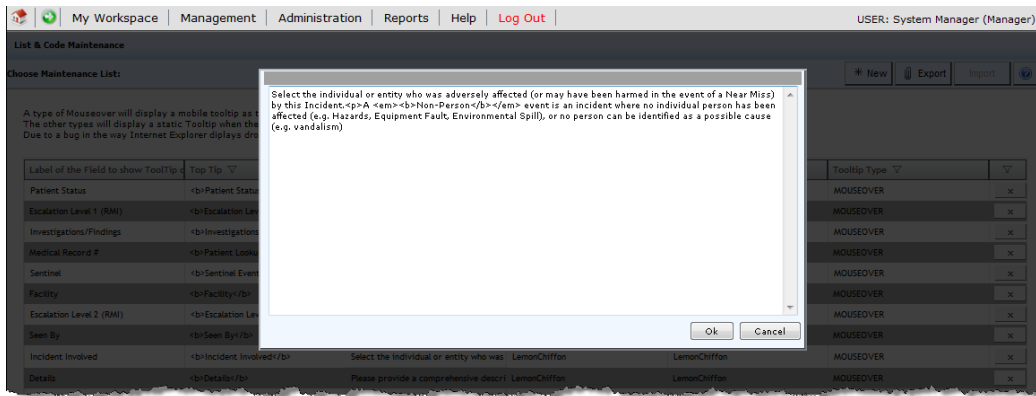

**INCIDENT TOOL TIPS**

Incident Tool Tips are accessed by selecting **“Tool Tip definitions”** from the **Choose Maintenance List**

The screenshot shows the 'List & Codes Maintenance' interface. At the top, there are navigation tabs: My Workspace, Management, Administration, Reports, Help, and Log Out. The user is identified as 'System Manager (Manager)'. The main area is titled 'List & Codes Maintenance'. Below this, there's a search bar for 'List Name' (set to '(Incidents) ToolTip Definitions') and 'Lists for Register'. A table lists various tool tip definitions with columns for 'List Caption', 'Records Found', 'Label of the Field to show Tooltip on', 'Top Tip', 'Top Color', 'Bottom Color', 'Tooltip Type', and an edit/delete icon. The table includes entries like '(Incidents) ToolTip Definitions', '(PU) Pressure Ulcer Risk Score', '(RCA) Issue Groups', etc. A tooltip is visible over the first row, explaining mouseover behavior: 'A type of Mouseover will display a mobile tooltip as the mouse pointer moves over the field. The other types will display a static Tooltip when the field gets the focus. Due to a bug in the way Internet Explorer displays dropdown lists...'

To create a new tool tip press **New** or **CTRL+SHIFT+N**. Fill in the details as described below

- **Label of the field to show Tooltip:** Select the label of the field or button from the drop down list that you wish to associate the tool tip with.
- **Top Tip:** Optional: Enter the description you want to display in the Top Tip eg. the name of the field - Notification Type (see examples at the bottom of the page). **Suggestion:** Double click this field and a pop-up editable box will display. Enter your text and press **OK** to save the entered information (see example below)

**Note:** If you wish to format your text in the top tip eg. Italicise, bold, underline, line breaks, centre, then HTML code is required - see examples on the following pages. For any additional formatting contact RiskMan support: [noreply.SupportHUB@rldarix.com](mailto:noreply.SupportHUB@rldarix.com)

- **Top Color:** If a top tip is entered then select a colour for this tip from the drop down list of colours
- **Bottom Tip:** Optional - Enter the description for this tool tip.  
**Suggestion:** Double click this field and a pop-up editable box will display. Enter your text and press **OK** to save the entered information (see example above)

**Note:** If you wish to format your text in the bottom tip eg. Italicise, bold, underline, line breaks, centre, then HTML code is required - see examples on the following pages. For any additional formatting contact RiskMan support: [noreply.SupportHUB@rldarix.com](mailto:noreply.SupportHUB@rldarix.com)

- **Bottom Color:** If a bottom tip is entered then select a colour for this tip from the drop down list of colours
- **Tool Tip Type:** There are 4 types of tool tips that you can create. It is advisable to use the MOUSEOVER option in all cases. Refer to the examples below which show each tool tip type

**Example of MOUSEOVER**

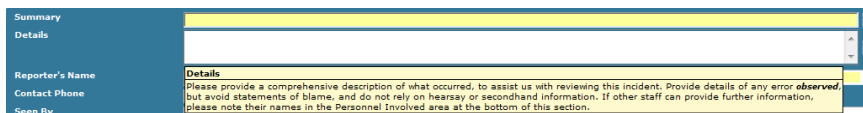

**Example: TOPRIGHT**

**Example: LOWERRIGHT**

**Example: UNDERNEATH**
