Introduction

This reference guide is aimed at Managers or Administrators who will be responsible for managing the User Templates in RiskMan. This guide is used in conjunction with the respective **RiskMan User Permissions Descriptions Guides** which can be accessed from *Help*

-> Reference Guides

Note: Some of the naming conventions used in this document may not be the same as the ones in your RiskMan system; however the concepts will still apply

CRLDatix[®] RISKMAN QUICK REFERENCE GUIDE TO USER TEMPLATES What are User Templates?

User Templates define the field settings, user permissions and in some cases restrictions a user will have access to in RiskMan. Each user will be assigned a user template in the Registers that they have permission to e.g. Incidents, Feedback, Risks or Quality Activities Users who self register in RiskMan will automatically be assigned the basic level template "**Default**" against the General and Register as well as any other Registers they are automatically granted permission to e.g. Incidents, Risk, and Quality Activities. In some organisations a user may only have permission to the Risk Register and/or Quality Activity Register once the Administrator has activated them under those specific User Profiles The templates created under any of the tabbed sections of the User Templates are unique to that Register; so a user can be assigned a different template in their Register specific User Profiles **Note:** The "**Default**" template cannot be renamed or removed from the Template list. This template is

usually assigned at the staff entry level. If self registration is turned on in your RiskMan, any user who self registers will be assigned the 'Default' template in the applicable Registers

How do I create a new Template?

To create a new Template you will need to navigate to the Administration -> User Permissions -> User Templates page

🥸 📀 My Workspace Management Administration Reports Help Log Out	USER: System Manager (Manager)
General Incident Quality Activity Risk Feedback	
User Templates (General)	
Select Template: Note: Users counts include Feedback. Save Template	New Template Delete Template

The User Templates page is made up of tabbed sections. Each tabbed section represents the Registers that you have available in your RiskMan e.g. Incidents, Feedback, Risks, Quality Activities; with an additional non-register specific tab called **General**. Depending on your permissions you may see all tabs or just some of these tabs

The General Templates are used to assign User permissions that are common across all Registers and the Administrative Permissions. Individual Templates are created under each of the Register tabs and are independent of each other.

This means that

 If you create an Accountable Executive template under the Risk tab, this template name will not be available under any of the other Register tabs. If you want this template available under one or more of the other Registers you will need to create it under the respective Register

• If you create a **Line Manager** template under the **General** tab, it will not be available under any of the Register templates unless it is created under these

Each template will comprise some or all of the following sections

- **Template Identification** Name of the template; ability to base a template on an existing one; nominated start page (the page a user sees when they first logon to RiskMan)
- **Restriction Details** Entry/Update and Reporting Restrictions that are common throughout the Registers e.g. Region/Site & Campus/Location restrictions. Selection from this section will only be saved for templates under the General tab
- **Specific Restrictions** (<u>not available</u> under the **General** tab) Entry/Update and Reporting Restrictions that are specific to that register e.g. Journal Type Restrictions
- Field Settings (not available under the General tab) Specifies the status of a field e.g.
 Don't Display, Entry Required, Read Only, Optional Entry on a specific Register.
- User Permissions Specifies the users' permissions that are either common across all registers e.g. Administrative permissions (this is done under the General tab) or specific to a Register

To create a Template

- 1. Click on the **Register 1** tab you want to create the template under e.g. **General**
- 2. Press the New Template 2 button

Medical Services Nursing Services	Cardiothoracic surgery Clinical Haematology	Community and Ambulatory Emergency Medicine
Psychiatry -	Colorectal and General Surgery	- Engineering -

Example: Creating a template under the General Tab

- 3. Enter the name of your template in the Template Name (User Type) ³ field
- If the template is to be based on an existing template, select the template from the Base this template on ④ list

The **Restriction Details** (only under the General tab), **Specific Restrictions** (where applicable), **User Permissions** and **Field Settings** (where applicable) of that template will be applied to your new template

 If you are creating a template under the **Incident** or **General** tab, you will have the option to select the default **Start Page** ⁽⁴⁾ the user will see when they first logon to RiskMan if they are

assigned to this template e.g. for Line Managers this might be the "Entered Incidents" page; for Executives this might be the "My Reports" page; for Risk Managers this might be the "Inbox" page

6. For all Registers except for the General tab, the Restriction Details I will not be saved with the template. If you apply these restrictions under the General Tab and that template is applied to a user in the User Profiles, that user will be restricted across <u>ALL</u> Registers. In most cases these restrictions will be applied at the User profile level. If you do want to include these restrictions in the General User Template the following describes the restrictions:

Entry/Update Restrictions: If the users on this template can only enter or update Register items based on Region/Site and/or Campus/Location restrictions, select accordingly. To select more than one item in a list hold your **CTRL** button and click on the list items

Reporting Restrictions: If the users on this template have access to running Register Reports based on Region/Site and/or Campus/Location restrictions, select accordingly. To select more than one item in a list hold your **CTRL** button and click on the list items

For Register Templates only, are there any Specific Restrictions

 applied to the users on this template. If so highlight as required

Example: Restriction Details for the **Feedback** Templates.

For each Register

- Highlight the specific Entry/Update or Reporting field restrictions that relate to that Register Template
- Show Only "Alerted" <Register> In Inbox: This option should <u>only</u> be checked if the users on this template have access to the respective Register Inbox (e.g. Risk/Quality Managers, Consumer Advocates) and should only see the respective Register items they have been alerted to
- Show Only "Alerted" <Register> In Reports: This option should only be checked if the users on this template have access to the respective Register Reports (e.g. Risk/Quality Managers, Executives, Line Managers) and should only report on the Register items they have been alerted to

Note: Care should be taken when adding restrictions as they may be different for individual users on this template. These restrictions can be done via the User Profiles. However, if restrictions are included in a template, when applying templates in the User Profiles page, <u>ONLY</u> the respective "**Restrict to these Reports**" and "**Restrict to these Journal Types**" restrictions will be applied. To update the other restrictions for users on that template you will need to use Apply Template Changes. Refer to the section "**How do I apply changes to templates to all users on a template**"

- For each Register template (not applicable to General), you will be required to specify which fields a user assigned to that template is required to complete, based on their role within your organisation. Fields can have one of 4 statuses
 - Don't Display Not required in this template
 - Entry Required Mandatory for users on this template to enter/select data into this field
 - Optional Entry Optional for users on this template to enter/select data into this field
 - Read Only Visible for users on this template for information purposes only. The user will
 not be able to enter or edit data in this field

If all fields in a specific section are not required, click on the "Hide <section name> section" (3) check box

10. For the Register Templates under the **User Permissions 9** section is a list of categorised permissions to RiskMan.

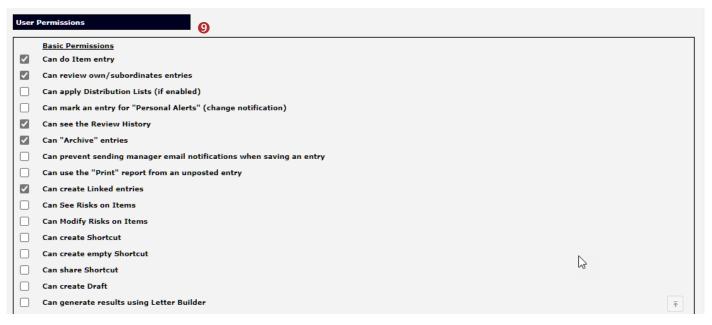

The User Permissions under the General tab are permissions that are either non-Register specific e.g. Administrative Permissions or permissions common across all registers e.g. can bookmark entries

The User Permissions under the individual register tabs will be Register specific **Note:** A description of these permissions is available in the respective RiskMan User Permissions Description Guides.

User Permission

User	Permissions 9	
	Basic Permissions	
	Can "Bookmark" entries	
	Can view Reminders	
	Can use the "Contact Riskman" (developers) link on the Help menu	
	Can edit own Line Managers	
	Can bypass manager selection	
	Can Not be the target of a Distribution List on item entry	
	Can Not be selected as their Manager by a user	
	Can see personal email log on menu	
	<u>MyDetails</u>	
	Can change own password.	
	Can modify own sites (if enabled in Global Settings)

CRLDatix[®] RISKMAN QUICK REFERENCE GUIDE TO USER TEMPLATES How do I apply changes to templates to all users on that template?

Note: Available in September (2012) SR 11 or above

To apply the changes you have made to templates, navigate to the Administration -> User

Permissions -> Apply Template Changes page

- 1. Select the Register **0** the template was modified under
- 2. Check the templates 2 that you wish to update

Note: If the template does not exist in the list it means that there are no users assigned to that template

- 3. Check mark the sections **S** of the template that you modified
- Press the respective Apply the Template Changes 4 or Reset 4 button (depending on the Register page you have displayed)
 - All users on that template will be updated
- 5. Repeat steps 2-4 if you wish to apply different template changes to another template under the same Register
- 6. Repeat steps 1-4 if you wish to apply template changes under another Register

CRLDatix[®] RISKMAN QUICK REFERENCE GUIDE TO USER TEMPLATES How do I delete a template?

User Templates can be deleted from the User Templates page provided there are no active, expired or deleted users assigned to that template. If a user is assigned to a template that is to be deleted, it will be necessary to

- 1. Locate the user in the respective User Profiles Register
- 2. Assign them to another template
- If the user assigned to the template that is to be deleted is a deleted user, it will be necessary to
 - Undelete the user
 - Reassign a different template e.g. "Default" (as this template can never be deleted)
 - Save the user
 - Delete the user again

Note: For more information on how to modify or delete a User Profile, refer to the respective RiskMan User Management Guide (Network Logins) or RiskMan User Management Guide (Non-Network Logins)

Deleting a Template

To delete a template you will need to navigate to the Administration -> User Permissions -> User Templates page

- 1. Select the respective Register 0 page
- Select the template you wish to delete from the Select Template list the number of users assigned to that template will display in the list

0	User T	emplates (Gen	eral)		
Select Template:		K 2	Save Template	New Template	Delete Template

Modifying the Field & Section Labels/Colours on a Register Form

The label of a Field or Section Name and the background colour of a Section can be modified if

the following icon 📶 appears in front of the Label

H Who Was Affected?	
AIncident Involved	Entry Required 👻
🔏 First Name	Entry Required 👻
ASurname	Entry Required 👻

Example: Fields on the Incident Entry form

To be able to modify the label of a field or background colour of a section on a Register form

• The user requires the following Administrative Permission under the General tab: Can Modify Global Settings

To modify a field label

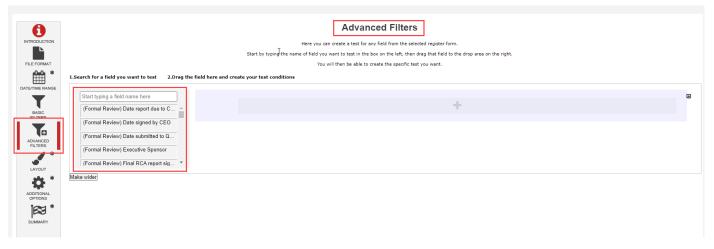

- 1. Ensure you have a template selected under the respective Register
- Click on the displays the Edit Field Detail panel:
- 3. Enter the label in the **New Title Text**

 field (this is the label that will be used on the data entry form)
- The **Report** title **3** determines what should be displayed when this field is utilised in Reports. The options below the label text include:
 - a. **Display:** Allows this field to be utilised in Reports

Summ	ary			-	ry Rec			
Details	5			Ор	tional	Entry	~	
lit Field Detail	I							
Entry Title 🕜	Þetails 2							×
Report Title 🕜	Details 8							
	Display 🕜	✓	Condition 🕜	✓	Group	0		
Alert Title 🕜	Details							
	Display 🕜	✓	Condition 🕜	✓				
Advanced								
Post Cell 🕜			elling" src="image pellCheck(docum				ail"));">	\sim
			Gen	erate F	Post Cell fi	rom: CI	hoose Te	mplate 🗸
Script 🕜	onfocus="pa	arent.fn	PreSpellCheck(th	is);"				$\langle \rangle$
	ld 🕜			Cla	ss 🕜			

Note: The image above demonstrates the field this function relates to in the Customise Layout page

b. Condition: Allows this field to be chosen in Advanced Conditions for filtering purposes

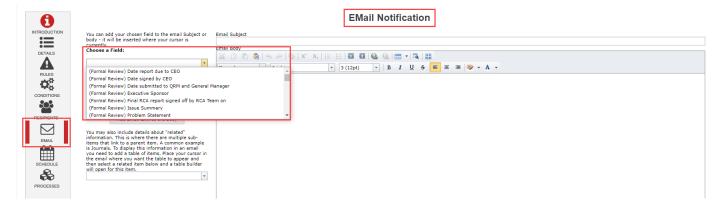

Note: The image above demonstrates the field this function relates to in the Reports page

c. **Group:** Allows this field to be chosen as a **Grouping** field when creating a **Custom Report Layout**. Note that free text fields should **not** be enabled for grouping

Groups	Group Fields	۲
Detail 🛨	(Formal Review) Executive Sponsor	
1 2 3	(Formal Review) Issue Summary	
1 1 1 1 1 2 1 1 3	(Formal Review) Problem Statement	
	(Formal Review) Review Conclusions	
	(Formal Review) Review Notes	
Sub-Reports	(Formal Review) Review Reference	
	(Formal Review) Review Status	
1.	(Formal Review) Review Team	
	(Formal Review) Review Title	
	Age	
	Age Group	
	Are Modified / Alternative Duties Required?	
	Are you reporting the incident on behalf of another person?	
	Body Part	
	Cause of injury	
	Client ID Number	1 -

Note: The image above demonstrates the field this function relates to in the Customise Layout page

- 5. The **Alert** title **4** determines what should be displayed when using this field in Alerts. The options below the label text include:
 - a. **Display:** Allows this field to be utilised in the email section of your Alerts page as highlighted below

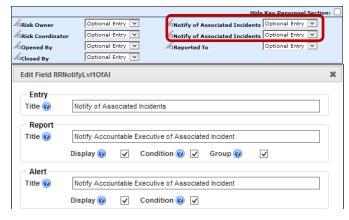

b. Condition: Allows this field to be used when creating Alert filter criteria as shown below

		Here you need to define the conditions which must be m	Conditions net in order for the alert to trigger. You can add as many conditions as necessary.	
DETAILS	Please enter a Descriptive name for these conditions: Eg. Staff ma		ny existing records there are which match the conditions you have added.	
RULES	The focus of this alert is Just Incidents	×	Select to add a related filter for 🔹 👻	Test Conditions
CONDITIONS	Start typing a field name here (Formal Review) Date report due to C		+	۵
	(Formal Review) Date signed by CEO (Formal Review) Date submitted to Q			
SCHEDULE	(Formal Review) Executive Sponsor (Formal Review) Final RCA report sig			
PROCESSES	Make wider			

Note: The properties in the **Advanced** section <u>should not be modified</u> except without the explicit guidance of RiskMan International

6. If your Entry form has more than one label with the same name, ensure the labels for the Alert Title and Report Title are such that users are able to distinguish which Entry form label the field is referring to (refer to examples below of the "Notify of Associated Incidents" label on the Risk Entry form)

Example: "Notify of Associated Incidents" referring to the Accountable Executive on the Risk Entry form

Example: "Notify of Associated Incidents" referring to the Responsible Manager on the Risk Entry form

 If a field label is determined by the Global Settings e.g. Site, Location, Program; the Title Text, Report Title and Alert Title will be displayed in a similar way to that in the example below of the "Site" field

Edit Field Sit	e	>
Entry Title 🕜	*GS_SiteName	
Report Title @	*GS_SiteName	
	Display 🔞 🗸 Condition 🔞 🗸 Group 🔞 🗸	
Alert Title 🕜	*GS_SiteName	
	Display 🝘 🔽 Condition 🞯 🖌	

 If you make a change to any of these labels, it will only affect the label on that Register Entry form and will <u>NO LONGER</u> obey the Global Settings label. An example where this may be useful

Global Settings = Site where Incident Occurred

This would be useful on the Incident Entry form but not on the Risk Register, Feedback Entry

or Quality Activity form. You might want to call this field

- Site of Risk in the Risk Register
- Site on the Quality Activity form
- Site where Feedback is initiated in Feedback*
- 9. Press Save when complete

To modify a Section Title/Colour or Background Colour

1. Click on the kicon 1 next to the Section Title

Who or What Was Affected?		
AIncident involved	Entry Require 💙	
AWho is affected?	Edit Section 75	
Client ID number	tion	
AType of worker	e Who Reported the Incident? Fill #ff2925 Text #ffffff	
AType of employment	3 4	
Roccupation		
&First nave	Save Cancel Do	nt Display 😽

2. Modify the label in the **Current Section Title** ield (*this is the field on the respective Register form*)

Note: If the title starts with *GS_ it means that the label is coming from the Naming Conventions in the Global Settings. If the label is changed it will not be affected by future Global Setting changes and will only affect that Register

To change the background colour and text colour of the section click on the respective colour box 6 & 4 , and a colour picker will display. Click your mouse to select your desired colour.

Note: At present, you cannot type the HEX code manually in order to designate an exact colour. Please contact RiskMan Support if you require a specific colour or colours to be used. Be careful with choosing colours. Make sure they complement each other. If you need assistance with colour matching please contact RiskMan Support - <u>https://hub.rldatix.com/SupportHUB/s/</u>

4. Press Save when complete

Who Reported the Incident?			
A Reporter's name	Entry Require 💙	A Reporter's position	Entry Require 🗸
Contact phone	Optional Entry 🗸		
${\cal B}_{ m Are}$ you reporting the incident on behalf of another person?	Entry Require 😡	Who are you entering this incident on behalf of?	Entry Require 🖌

Example: "Dates" section after changing the text and background colours
