

Entering Risk

- To enter a new risk, go to *My Workspace>New> Risk*
- Move between data fields using the **mouse**, **TAB** or **SHIFT TAB** keys
- **DO NOT** enter data with **CAPS LOCK** on
- Complete all fields/buttons that are displayed in **YELLOW**. The case cannot be saved unless these fields are completed
- **Tool tips** may appear when you put your mouse over some of the fields to help you with entering the risk

Policy Links  may appear next to some fields, which you can click on to take you to an external website.

- When choosing values from a multi select field, ensure you click the check box and not the text.

- Field content can be deleted by highlighting everything in a field and pressing the **DELETE** key.
- Press **Submit** after you have completed the Risk.

Risk Entry

Submit this form to record the risk.
You will be able to modify this page once it is submitted.

Details: Users are required to enter a **Risk Name** and **description** and a **reference** if known. The **Risk Name** field has a character limit of 300.

Risk Status: Enter the dates relevant to the risk by using the calendar picker or typing the date in the date field using DD/MM/YYYY format. A **reminder period** can be set. Click on the drop down to select frequency. A reminder will be sent to the relevant risk owner based off the reminder date and period.

Risk Classification: Users are required to select the **Category** and the **Sub-category** relevant to the risk

Risk Ownership: Click the drop down in each field to populate the relevant location information.

Key Personnel: Select the person icon to have a list of all RiskMan users present. Select the relevant user to populate each field. If a user is named in any of these fields, that user will be alerted to the risk once saved.

Catalyst/Causes: Click the **“add catalyst”** button to populate information to describe circumstances or scenarios that may bring about a risk exposure.

Consequence: Click the **“add Consequence”** button to populate information to describe negative consequences that the risk may present.

Submit and Clone: Copies the current version of the record and links the records together
Submit: Saves the current record

Reviewing Records

Once a Risk Manager has submitted a risk, a Supervisor will be notified via email that will include a direct link to the relevant record for review.

Alternatively users may enter the ID number into the “Go To” function to be directly taken to a record if known.

1. Press the icon on the menu or press **ALT-G**
2. Select **Item = Risk** and enter the **ID**
3. Press **Enter** or click the **Go** button
4. If you have permission to the risk it will open

To open a record within the list page, click on its respective **ID**

Who else needs to know about the risk?

As the Risk Manager, users have the discretion to distribute records to other users that will allow that user permission to view the record.

How to identify who has access to a record:

The **Review History** at the bottom of the risk will indicate to you who has been notified of, edited or viewed the risk. If required create a **distribution list** to notify other users of the risk.

How do I let others know of the risk?:

If, after reading the risk and looking at the **Review History**, you think other users within your organisation should be notified of the risk, you can create a **Distribution List (details below)**

Review History		
Date	User	Notes
27 May 2016 12:08	Risk Manager (Risk Manager)	Created the risk item.
27 May 2016 12:08	Quality Manager	Email SENT: Notify Risk Manager
27 May 2016 12:08	Robb,Roy (Robbroy)	Manager Email SENT.
27 May 2016 12:11	Risk Manager (Risk Manager)	Risk item edited.
27 May 2016 14:45	Risk Manager (Risk Manager)	Most recently viewed.

Risk Control Panel

The Control Panel contains various functions (depending on the user’s permissions) to assist with managing the current record.

Options within the Control Panel are:

BOOKMARK

Places the Risk into your **Bookmarked Items** list, available via the *My Workspace > Reminders & Alerts* page. You may wish to bookmark the Risk as one you would like to follow-up later, or requires further information before investigations are underway.

To Bookmark a Risk, click on the **Bookmark** button

How do I view my bookmarked records?

All your bookmarked Risks will be listed in your **Bookmarked Items** list under the

My Workspace > Reminders & Alerts page

1. To open the Risk click the **Notification Date** link
2. To remove the bookmark, click the **Bookmark** button on the **Control Panel**

ARCHIVE

If Supervisors have completed a record and no longer require the record to be shown in the “Entered Risks” list, the record can be “Archived”.

To Archive a Risk, click on the **Archive** button

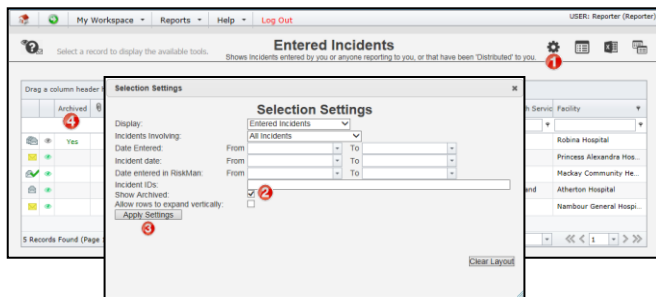

To archive records from your Entered Risks page

1. Check mark ❶ the record(s) that you would like archived
2. Press the **Archive** icon ❷. The Risk(s) will be hidden from your Entered Risk List

How do I view an archived record?

1. Enter **Selection Settings** by clicking on the  icon ❶
2. Click **Show Archived** ❷ and press **Apply Settings** ❸
3. An **Archived** ❹ column will display, indicating which records have been archived. Archived records can still be opened and modified if required.

ALERT ME

What does the "Alert Me" function do?

The "Alert Me" function, when activated, will notify you of any changes to the Risk (except changes to the Journals and Documents).

1. To setup a Personal Alert click on the **Alert Me** ❶ button
2. Select the duration the alert is to remain
3. Press **Save** ❸

CHANGE HISTORY

How do I view the changes that have been made to a record?

Each time changes are made to a record, a new version of that record is created; this ensures the original version is kept intact. The record you are viewing is the most current version.

1. Click on the **Change History** ❶ button in the **Control Panel** of the opened Risk
2. The **Risk Edit History** window will open displaying the changes **by version** or **by field** ❷. You will only be able to view the changes on fields that you have permission to view in the Risk

Note: The Risk Edit History will not display any changes to Journals or Document as there is no history. Only the current versions of the Journals and Documents are available on any version of an Risk

DISTRIBUTION LIST

1. Click on the **Dist List** ❶ button
2. Search for the users using the **Filter List** ❷ option e.g. filter by the user's first or last name
3. Highlight the user in the **Unassigned List** ❸ and press **Assign** ❹
4. Repeat steps 2-3 if more users are to be notified
5. **Recommended:** Enter a **comment** ❺ explaining why the selected users are being distributed the Risk. These comments will appear on the email that is sent to the

nominated users and can also be accessed from the Review History of the Risk

6. Press **Send Email & Close** ⑥

Note: *If there are already users in the Assigned list when you are creating a Distribution list, it means that the users have not yet read the Risk – do not delete them from the list, as this could negate their permissions to the Risk. Only the newly added users will receive the email*

PRINT

Can I print a copy of the record?

A copy of the current version of the record can be printed from an opened record in different formats e.g. PDF

1. In the Control Panel, select an **output format** ①
2. Press **Print Preview** ②

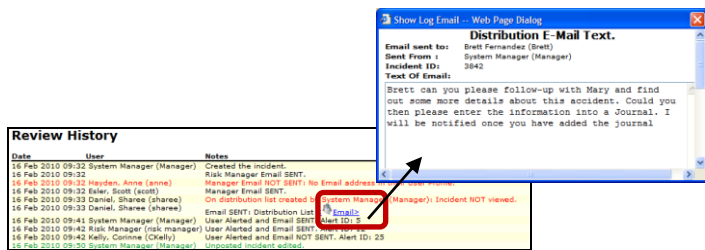

- When you click on the link it will take you to the **Assigned Risk - Unviewed** Listing page. You can open the Risk from this page by clicking on the Risk ID.
- Once you have read all your distributed Risk the “Risk review required” message will disappear

Can I view comments sent in a Distribution List?

The sender/receiver via the Review History of the Risk can view the comments included in a distribution list email

To view the comments click on the [<Email>](#) link in the Review History

What happens when you are distributed an Record?

1. If you have an email address in your User profile you will be sent an email notification with a link to the Risk
2. If you have unread distributed Risks
 - An **Risks For Review** message will appear at the top of your RiskMan system (see example below)
